

Georgia's Gabe Sterling Goes Silent and Is "In Hiding" Since Georgia State Election Board Finds Violations in Second 2020 Election Investigation

by Guest Contributor Apr. 23, 2024 [Story source: Gateway Pundit](#)

Georgia Sec. of State Brad Raffensperger & Gabe Sterling chief operating officer in the office of the Georgia Secretary of State.

The people were right. The 2020 Election results in Georgia never should have been certified. The 2020 election in Georgia was stolen. It's a fact.

Georgia's Gabe Sterling who was involved in the certification of the stolen 2020 Election claimed that there were no issues with the Georgia election results. This was false and is false. Even Governor Kemp agreed that there were issues with the 2020 Election.

Georgia citizen Joe Rossi looked into the 2020 Election and the recounts after the election and he found numerous issues with the election results in Fulton County.

Thanks to the efforts of Georgian Joseph Rossi, thirty-six errors were found in the Fulton County data in the RLA report posted on Georgia's Secretary of State's website.

Rossi went after those in authority requesting that they review his data. He was turned down and ignored numerous times. But eventually after a series of events, Rossi was able to get his work showing numerous errors in front of members of Governor Kemp's office.

As a result of Rossi's work and Kemp's team's investigation, the Georgia State Elections Board (SEB) initiated an investigation into the Fulton County data from the RLA report. This investigation was labeled SEB2021-181. Eventually **the SEB identified violations** and errors in the recounts of the 2020 Election in Fulton County.

Another complaint related to Fulton County was filed that specifically called out 3,125 duplicate ballot counts and 17,852 votes counted without corresponding ballot images. These ballots should never have been included in the election. This complaint resulted in the creation of investigation SEB2023-25. This investigation is complete and the results of this investigation will be presented to the SEB on May 7, 2023 per a letter recently received by Joe Rossi. This complaint has been categorized by the Board as "**violations found.**"

STATE ELECTION BOARD

Dear: Joseph Rossi

RE: SEB2023-025

As a courtesy, you are hereby informed that a matter regarding which you provided information to the State Election Board is on the agenda for the Board's meeting to be held on May 7, 2024, at 9:30 A.M. The meeting will take place at the Georgia State Capitol, Room 341. You are not required to attend but are welcome to attend if you wish.

Only the respondent, as the party who is accused of a violation, is entitled to be heard on the allegations. The respondent, as the party accused, but no other party or parties will be afforded the opportunity to offer input for the Board to consider in determining whether a violation was committed and the disposition of the matter.

The matter involves allegations that were investigated by experienced investigators. During the investigation, the investigators considered facts initially supplied when the matter was opened, and any other relevant information obtained and developed regarding the allegations. The investigators have prepared for the Board's exclusive use a written report which is provided to each of the Board Members to review and study prior to the meeting. The report contains, where appropriate, an evaluation whether the respondent(s) violated either state election law or State Election Board rules. At the Board meeting, investigators will present to the Board the findings of their investigation. The Board will make its own independent determination whether there was or was not a violation.

The Board has separated complaints that will be heard at the meeting into two groups: those in which investigators found a violation and those in which they did not. This matter is in the violation found category. The Board has sole discretion to determine if a violation occurred and, if so, how a matter will be resolved. If the Board finds that there has been no violation, the complaint will be dismissed. If the Board determines that there has been a violation, the Board has several options including but not limited to referring the matter to the Attorney General and/or a District Attorney or issuing a Letter of Instruction.

The Board thanks you for your participation in our electoral process and in its ongoing quest for open, accessible, fair, transparent, and trustworthy elections.

Sincerely,

The Georgia State Election Board

2 Martin Luther King Jr. Drive, SE Suite 802 West Tower Atlanta, GA 30334 470-312-2715

Despite numerous issues that should have prevented the 2020 Election from being certified, the election was certified and then [the SOS's office lied](#) about the accuracy of the recounts in Georgia.

[Remember that the 2020 results were certified for Biden three days after the election after he overcame President Trump's 200,000 vote lead on election night to steal the election by less than 12,000 votes in Georgia. – See [The Steal – Volume II: The Impossible Occurs](#) for more information.

Note also that the investigations noted above were independent of two court cases that occurred in Georgia after the 2020 Election. At least three individuals involved in a recount that occurred in the state after the election identified **148,000 ballots that appeared to have been created by a machine and to be fraudulent**. Fulton county and others in the state are still preventing access to these ballots even though the Georgia Supreme Court ruled that the [plaintiffs have the right to audit](#) these ballots.

In addition, a separate audit of voting machines was initiated after the 2020 Election which was [finally released years later](#) which showed that **the systems used in Georgia had security issues** and bad actors could hack into them and change the results of an election.

And, we recently found out that there was [no signature validation](#) for tens of thousands of votes counted in Fulton County. A Fulton County Commissioner voted not to certify the election based on this issue.]

Since being notified of the second investigation classified as “violations found”, Rossi requested that Gabe Sterling provide an explanation for his comments and email responses where he claimed that there were no issues in the 2020 Election in Georgia.

This is Rossi's 11th email to Sterling:

Gabe, respectfully this is now the 11th follow-up request for a 1 hour meeting to discuss election facts, since your Christmas 2023 - Tweet in which you stated, "It's 2023, we are still dealing w/ the lies..."

Since this X-Post/Tweet, it has now been confirmed by the SOS's investigators that both election recounts in Fulton County were errored and violated GA election laws. Specifically:

1. SEB2021-181 - concluded that Fulton violated the election code for the hand audit.
2. SEB2023-25 - recently, the certified Fulton 2nd machine count for the Nov 3, 2020 election violated the election code. As you are aware this case will be presented to the SEB on 5/7/24.

As the Chief Election Implementation Manager for the Nov 3, 2020 election, it is now time for you to come out publicly to discuss 1. and 2. above.

As a GA citizen, I can't force you to meet, however, I can continue to follow up respectfully and continue to apply public and legislative pressure for you to do the right thing. Hiding behind Christmas Tweets doesn't build public confidence in the GA election system.

Respectful, full-disclosure public meetings and investigations build public confidence.

Respectfully available, per your schedule - any day. anytime, any location.

Joseph Rossi

After being behind the efforts to certify the uncertifiable election in 2020 and getting caught with not one, but two investigations into the 2020 Election results, and two court cases identifying thousands of issues with election results, and uncovering that no signature validations occurred in Fulton County for over 100,000 votes, Gabe Sterling is nowhere to be found.

Gabe is hiding.
