The GOP hearing today in Gettysburg, Pennsylvania spells doom for the Democrats.

They tried to steal a 700,000 vote Trump lead.

They were careless and got caught.

We need to see jail time for these criminals who stole our rights as Americans!

A Pennsylvania lawmaker today testified that the legislature DID NOT vote for Dominion voting systems.

Governor Tom Wolf MANDATED the controversial voting systems.

This is big news!

BOOM: A Pennsylvania Legislator says that they never voted on whether to implement Dominion Voting System.

It was mandated by the Governor.

Do you know how much of a bombshell this is, Patriots? It means [they] got caught in the act!

Wolf also removed barcodes from ballots.

Gov of Pa mandated dominion system & rejected bar codes on mail in
ballots which would have proved validity! He needs ousted!
